

# Imagine Schools Academic Excellence Framework

Imagine Schools is committed to accelerating academic growth for every student we serve by intensifying instruction, increasing learning gains, and improving academic outcomes on every Imagine Schools campus.

To help fulfill this commitment, we recently introduced our new *Academic Excellence Framework*.

This Framework provides a structure and a roadmap that guides us in a clearly defined direction to fulfill our mission of preparing students for lives of leadership, accomplishment, and exemplary character. It equips us with a common language, common practice, accountability measures, and the tools to help us reach our academic goals.

*Imagine Schools Academic Excellence Framework* sets high expectations for every student and adult at our schools.

Involving every Imagine person in the Framework will result in increased focus, collaboration, innovation, and accountability. School leaders, teachers, students, parents and Governing Board members share in a cycle of decision-making with student achievement at the heart of the process. These important groups partner to fulfill one mission, each with a unique role on the road to excellence.

- **Imagine leaders** guide the school vision and mission, and coordinate a culture of high achievement in the school community.
- **Imagine teachers** plan and instruct in a classroom environment that fosters students' positive character development and academic growth.
- **Imagine students** acquire and own their education, becoming motivated for personal achievement and taking responsibility for their learning outcomes.

- **Imagine parents** choose their child's school and partner with Imagine to ensure the success of their student as well as the entire school.
- **Imagine Governing Boards** inform and advise all members of the school community to ensure that a culture of positive character development and robust academic growth is achieved.
